

Since we are an outdoor venue, we will not require everyone to wear face masks or bandanas.

Everyone, especially those in the most vulnerable groups will have to make their own decision whether or not to attend.

From the Centers for Disease Control Web Site:

**“Based on what we know now, those at high-risk for severe illness from COVID-19 are:**

- **People 65 years and older**
- **People who live in a nursing home or long-term care facility**

**People of all ages with underlying medical conditions, particularly if not well controlled, including:**

- **People with chronic lung disease or moderate to severe asthma**
- **People who have serious heart conditions**
- **People who are immunocompromised**
  - **Many conditions can cause a person to be immunocompromised, including cancer treatment, smoking, bone marrow or organ transplantation, immune deficiencies, poorly controlled HIV or AIDS, and prolonged use of corticosteroids and other immune weakening medications**
- **People with severe obesity (body mass index [BMI] of 40 or higher)**
- **People with diabetes**
- **People with chronic kidney disease undergoing dialysis**
- **People with liver disease**

Bring your own water. We will not have shared snacks or water at the table.

Please take a moment before you leave your house to take your temperature. If you are running a fever stay home.

If you feel ill or are experiencing any of the following symptoms, stay home.

Fever of 100.4 degree or more.

Persistent, acute cough related to respiratory illness.

Shortness of breath.

If you have had close contact in the last 14 days with anyone who is positive for COVID-19, Stay home.

If you have travelled within the past 14 days, Stay home.

Bring your own water.

We will have hand sanitizer and Clorox wipes available for everyone's use.

When we set up, I don't think gloves will be necessary since the virus can not live on the surfaces for the two weeks plus between practices. We will just have one person set up each piece of equipment. For instance, whoever removes the targets from the shed will also set them in place. When we break everything down after practice, I will have gloves available for your use. Throw them in the trash as soon as breakdown is complete and sanitize your hands.

We will set the targets at a minimum of six feet apart.

I ask that everyone try to maintain a distance of at least six feet from each other. This does not apply to family members.

Those of you who normally share tables etc will find it difficult to maintain proper distancing so make sure you bring your own table and chairs.

Since we will be more spaced out, shade may be a problem so if you have a canopy please bring it.

The announcer and score keeper will now sit at separate tables to maintain the six foot spacing.

Bring your own gun cleaning supplies so we don't have to share.

Bring your own water.

We have two rollers so we will have two volunteers grease the targets all day.
